NetSuite Functional Consultant

Dynasoft Cloud is seeking a talented NetSuite Functional Consultant to oversee all NetSuite implementation and consulting services. This role requires technical proficiency in NetSuite software and a focus on client satisfaction.

Responsibilities:

- Lead and participate in NetSuite implementation projects.
- Configure NetSuite to align with business requirements, including workflows and customizations.
- Conduct thorough business process analysis and develop optimized solutions.
- Provide ongoing support and maintenance for the NetSuite system.
- Create and maintain comprehensive documentation for system configurations.
- Provide training and support to end-users for effective system use.
- Collaborate with cross-functional teams to ensure project success.

Requirements/Qualifications:

- Master's degree in MBA, ICMA, ACCA, or a related field.
- Minimum of 2 years of experience in NetSuite ERP implementation and customization.
- Proven experience in NetSuite implementation and customization.
- Strong understanding of business processes in finance, sales, inventory, procurement, revenue recognition, project management, and multi-books.
- Excellent problem-solving skills and attention to detail.
- Strong communication and interpersonal skills.
- NetSuite certifications (e.g., SuiteFoundation) are highly desirable.
- **Strong verbal and written communication skills in English are essential for this role.**

Salary: Market Competitive Based on experience + Benefits
